Biliary hamartoma: pathophysiology and natural history. Biliary hamartoma is a benign tumor arising from bile duct epithelium and should be distinguished from cholangiocarcinoma and primary papillary tumor of the liver. A case is presented of a 3-year-old girl with a huge mass in the biliary tree that was resected and showed histological features of biliary hamartoma. Two of the five remaining children have developed recurrent biliary tract stones, and the third, after total resection of the tumor, developed a biliary cyst, in spite of a patent
