What's New In Declan 039;s Korean Flashcards?

EADPlays your iPhone, iPod Touch, or iPad like a teacher would with FlashCards. Simply store flashcard-like phrases in your mobile device and learn them in minutes. A wide variety of flashcard types are included, allowing for the ability to learn flashcards for reading, writing, language, culture, memory, listening, spelling, and more. You can also listen to audio recordings of the phrases for the sake of memorization. EAD is perfect for the business traveler, college student, or professional who finds themselves in a situation where a refresher on the basics is a necessity. EAD not only helps you learn, it also provides a method of keeping your flashcards organized and concise so that you can be prepared anywhere and at any time. Developer: Marc Soriano, Mike O'Neil Softonic review 1 EAD comes close to revolutionizing the way people learn in your iPhone, iPod Touch, or iPad. There are thousands of flashcard apps available for the iPhone, but none of them come close to EAD. EAD is more than a good flashcard app, it is a good way of learning.
