More information about GDPR - Google Privacy & Terms.Ok I understandQ: which spanish function would do a super streetview/google maps "drag"? (or openlayers 3) I want an "drag and drop" to move the map, which is like the spanish "Abrir/cerrar imagen" "Drop image to here". I mean, I want the image to move to an position and keep in that position like a drag. i've seen this in internet explorer but i cant get any tutorials on how to do that. is it possible to do that with openlayers 3. A: You can use OpenL. 3a67dffeec
