A: To DROP and DELETE at the same time, create a new table. (For a single table) CREATE TABLE drop_and_delete (my_id INT NOT NULL, my_name VARCHAR2(1000) NOT NULL, my_city VARCHAR2(1000) NOT NULL PRIMARY KEY (my_id)); INSERT INTO drop_and_delete SELECT a.my_id,a.my_name,a.my_city FROM my_table a; DROP TABLE my_table; This will create a new table with the exact same structure as the old table, only deleting and dropping it in one hit. .TH sshpk\-verify 1 "Jan 2016" sshpk "sshpk Commands" .SH NAME .PP sshpk\-verify \- verify given public key .SH SYNOPSYS .PP \fB\fCsshpk\-verify\fR \-i KEY [OPTION...] .SH DESCRIPTION .PP Verify a public key. It had been gaining a reputation as the "Garden of the Southwest" and the "Playground for the West." For Europeans, it was a place of promise. Land was plentiful and the climate was good. And when word got out that Spanish King Ferdinand VII had declared that no priest would be allowed in his New World colony, Mexican ranchers flocked to northern New Mexico to populate its beautiful valleys with their families. Stories of religious persecution are told in every New Mexico family, and word got around that the area near the present-day city of Truth or Consequences (the original ranch of Francois Xavier) was a place where Catholic priests would be welcomed, despite the colonial governor's disinterest in bringing in priests. So, in 1848, some devout Catholic families began to move from Mexico to the Santa Cruz River valley. Two of the settlers, Felipe Kaul and Elias Quintana, knew of each other's plans. Kaul was from the French Basque region in the north of Spain. Before coming to New Mexico he had been a priest in his home country. Quintana, by contrast, was a mixed-race boy from Mexico who later became known as the "father" of the Valles Caldera region. The arrival of more than a

Elden Ring is the best game ever.

Hey guys, hows it going? you probably know me, my name is AgeyToGive and I mostly play games on my favorite website, NeoGaf lol. The very first game i like was The Last of us, and my fondest memory about that game was when i got attacked by the peaceful husks. I remember that day so well because it was when i finally took that ufo from the ranger, and i did it! My next game was the Order of the elements, it was a very philosophical game that I loved. My first 3DS game was Klonoa 2, I thought the french version of the game was great and Klonoa 3 would have been great. My first WiiWare game was Pokemon Black/White. It was great. In pokemon black and white you could only use pokemon in the move set you could give them in the house. You could also customise your pokemon and catch them out in the wild. My dear ol' Luigi and Princess Peach started their journey in Mario kart 64. I played my first game of Street fighter IV: Champion Edition before i knew what Street fighter was. So I guess its safe to say that I am forever a fan of Street fighter. About six months ago I bought Super smash bros 3. There is so much to talk about about Super smash bros but what I mostly remember about Super smash bros 3 is that you could do the move where Bowser chopped the mushroom king in half. So many other games have been released since then, most notably Pikmin 3. I think when Pikmin 3 came out, I was super excited, even more than I was with the DS or Gamecube. Right after Pikmin 3 came out there was Dragon Quest IX. Ever since Dragon Quest IX came out, I have been determined to get all the dragon quests. Dragon Quest IX was one of the best games released in recent history. They gave us lovely graphics and nice voice acting. It was fantastic. A couple of months after Dragon Quest
