This allows us to share the moments you've uploaded with your friends, so you can enjoy the sharing experience even more.

What's new in Fifa 22:

- **Accelerated Physics:**
 - **All dribbles and passes are highly responsive. Kicking the ball correctly to a teammate is just as**

important as perfect timing. Defenders have an enhanced sense of awareness and become more unpredictable to score.

- **Cheats and Coaches give different toolkits for your players to become immortal.**
- **Whilst diving make more use of the ground. Prior to the introduction of the new physics engine, diving only enhanced player movement, now, it also influences the gravity of the human body. A leap of faith is now guaranteed to level the playing field.**

- **Dynamic Player Control - CTD and HUD:**
 - **The execution of dribbles and passes is more responsive and accurate. Progress your game in style for the most immersive experience in the Franchise mode.**
 - **The manoeuvre of using your player's instagram follow options, decorations and settings have been fully converted into reality.**
 - **The position, size and movement of your player becomes more authentic and**

tangible.

- Take care of your player's thirst at the touch of a button, and allow them to do the talking on the pitch as an event arrives on your radar and the crowd goes insane. There are several new mechanisms behind the scenes to update your player with new abilities.
