Come and experience a heart-pounding, action-packed mystery! You are Mr. Ezio! You are a Master Assassin, trained to kill by the legendary Brotherhood of Venice. You are known throughout the world for your keen intuition, your patience, your perseverance, and your ingenious use of the weapons at your command. All this could be undone if you fail. That is why, before you embark on your quest, you must venture into the Dark Zone where you can hone your skills. In the Dark Zone, you will test yourself against some of the most ruthless opponents you've ever met. Only you can determine whether you are strong enough to take on the assassin's deadliest enemy. Enter the League of Assassins. You must be prepared to sacrifice everything. You must believe in who you are. Do you have the courage to do what your fellow Assassins have failed to do? Can you face the pain of your past? Enter the Dark Zone. Key Features Unlock the entire Arghos Archives, featuring 9 short films that tell the story of Ezio's Assassin career. Comments and Reviews5/5 - "Just to make sure we don't get caught up in the nostalgia, I always started with the "Classic" version, in case this DLC was a pain in the butt, and the remastered version wouldn't have had all these bugs and problems. I couldn't be happier with the remastered version. This DLC has made the game even better, and I look forward to playing with my new cursor and custom keybinds. Highly recommended!" - Twitch.tv Streamer Owyne 3/5 - "Cursor simply works much better and allows for better precision, and much more gameplay freedom. It also works great with the Mech controller (and at least one other gamepad). But by far the best part of this DLC is that it gives you to keys you never used in Classic Mode! All you need to do to see is to switch to cursor mode, then switch back to classic. Pretty much everything is the same and feel the same, except that the keys you once used to use for rocket jump, melee, or launching weapon, now work instead of your default key bindings. " - 4/5 - "It's a nice improvement on the old controls. The cursor can be quite difficult to use at first but it works well once you get the hang of it. I believe the team did a great job with this addon and I can't wait to continue playing with it. The new crafting system is also quite cool and adds a new element of challenge to the game. I am still trying to find the best spawn. Most enemies will spawn in the middle of the field after
