Like all international versions of the game, the puzzles have been fully reworked. Previous Super Jigsaw Puzzles: Generations - Japan Puzzles were sold at 80 levels total. They all included one puzzle from the Super Jigsaw Puzzle: Generations - China levels, 5 puzzles from the Super Jigsaw Puzzle: Generations - South Korea levels, and one puzzle per each of the remaining nations of the world. This content provides 18 puzzles in 4 levels of difficulty. The difficulty levels include easy, medium, hard and max, with each level giving clues to the next. In addition to puzzles and achievement features, the game includes the ability to play as Tsukiko & Ryo, as well as to unlock an alternate outfit for each character. The game also features voice acting. Tsukiko and Ryo are set to unveil a portal to another dimension in Japan, with puzzles riddled with the life of the people. The extra difficulty and content are designed to accommodate to the new Japanese market. Gameplay There are numerous gameplay improvements and fixes incorporated throughout the upgrade. While the gameplay of the game (as well as the English localization) stays true to its American origins, you will find the game tougher than in Japan. There are puzzles that will be difficult, but not impossible to solve, and puzzles that will be impossible to solve, with a high degree of luck required. The difficulty levels include easy, medium, hard and max. Easy puzzles feature fairly simple puzzles without a lot of rules to them, medium puzzles are somewhat tougher than easy puzzles but not nearly as difficult as hard puzzles, and hard puzzles are a bit challenging for the casual gamer. Medium puzzles sometimes benefit from not using many pieces in the puzzle and using other creative methods to fill in the puzzle. Super Jigsaw Puzzles: Generations - Japan has an overall simpler puzzle structure than Generations - China, but its puzzles are much more challenging. The harder difficulties are designed so that you have to think and use strategy as you solve puzzles. The game will be more difficult than Generations - China.
