The Disk Health Manager is a user-friendly application that gives you the power to diagnose and repair your data disk issues from any... I'm sure there will be a blog post about this, but just to be clear - for the time being, as far as I'm aware, the RGB switch that's on the front of the drive does not do anything, as far as powering backlight colors, it's all handled by the firmware and the new firmware can... Quote: I've been having a series of very odd hard drive failures lately, with the hard drive crashing a few seconds after opening my computer. It would then fail on opening the computer again, and needing to be reform
