Farvardin 14, 1388 AP - Figure 25. Winchuk community search report format. Source: National Chagas Disease Program. Page 60 ... I think you probably just don't understand how serious the problem is. Chagas disease is a real plague. It kills thirty thousand people every year. That's much more than in the case of other diseases, such as tuberculosis and malaria. If you were a doctor who works with AIDS, you would know that HIV doesn't matter if you don't have AIDS. Unfortunately for those with HIV, if you don't have AIDS, you will simply die. Chagas disease kills you just as badly as AIDS.
