---

on Monday, July 20, 2015 the names of selected applicants for provincial public service jobs. Public Service of Canada candidates are required to apply online at [www.pscanada.gc.ca](http://www.pscanada.gc.ca) by completing and submitting the CPS-Web application form. The online application system is secure, fast and easier for applicants to use. The Service Canada website has been

---

prepared for public service applicants who will be required to submit online. The online application system offers candidates the ability to search and apply for positions with the CPS-Web, either on-line or from a mobile device. In addition to an online application, applicants should also complete the application package sent to them by the CPS-Web and send it by mail or

---

fax to their local Service Canada office. Applicants can also call their local Service Canada office or local employment service to complete their application. In many instances of differential gear or differential use, there is a need to restrict relative motion between rotating elements, particularly in those applications which require precise control of relative

---

speed between elements. One type of differential arrangement useful for the purpose is a hollow shaft sleeve which rotatably receives a hollow shaft. The hollow shaft may be supported in a housing, or may be rotatably received at a housing which has a differentially rotatable pinion and pinion shaft arrangement. Both the housing and the hollow shaft sleeve are
