More Info: quantification of four specific types of collagen in 3D cultured human corneal stroma. The purpose of this study was to establish a standardized method for absolute quantification of collagen types I, III, V, and VI in human corneal stroma. Three dimensional (3D) collagen cultures were generated from human corneal stroma. Type-specific collagen was

extracted from 3D cultured stroma using pepsin digestion. The following quantities of collagen were quantified: type I, type III, and types V and VI. Bovine collagen was used as a standard in order to determine the units of concentration per mg collagen ($\mu\text{g}/\text{mg}$). To measure the overall quantity of type I, III, V, and VI collagen in 3D cultured stroma, the mass of collagen

(mg) was calculated by multiplying the mass of collagen (μg) by the unit of concentration ($\mu\text{g}/\text{mg}$). The mass of collagen was measured using an Eppendorf BioPhotometer plus (Eppendorf AG, Hamburg, Germany). Data were analyzed using GraphPad Prism 5.00 (GraphPad Software, San Diego, CA, USA). The unit of concentration of collagen was determined to be $2.4 \pm$

0.7 $\mu\text{g}/\text{mg}$. The overall mass
of collagen was $1.3 \pm 0.3 \text{ mg}$.

What's New in the?

How I Met Your Mother Folder Icon is a well-rounded collection, which contains a total of 78 icons in two sizes

each. They have been created with the latest web standards in mind and are designed to be cross-platform compatible. They are clean, simple and modern. All icons are vector-based which makes them extremely easy to modify and scale, plus, the whole icon set is built with the power of Illustrator and Photoshop. You will also be impressed with their transparency capabilities which gives you

the option of applying them as a background or overlay in Photoshop. Additionally, the PNG file format makes them perfectly suited for any dock application. Please keep in mind that although I use Illustrator and Photoshop for creating all the icons, you can use any raster graphics program for creating them.

Comments Hi, Would it be

possible to do rounded corners for the icon? I love how you do that, especially with the watch with the green arrow. You should make the next icon with rounded corners like that,
